About me

In short, I'm an enthusiastic, ambitious and dedicated 20 year old based in  Croatia. In my **6 years** of experience, I've taken up plenty of projects, both personal and professional. Aside from experimenting with computers, in my free time I enjoy researching various facts about math, finance, airplanes, cars, AI and anything else I find interesting.

Experience

Open-source contributor

in my free time

Full-stack developer
Ethereum Name Service

by proxy

Jan 2023 - Mar 2024

Led a team of engineers to build and develop a system for a semi-popular ENS' Cards project. Successfully managed and ensured smooth execution of this system for thousands of people in person at conferences around the world.

Software engineer & project manager
V3XLabs

Dec 2021 - Mar 2024

Built plenty of open-source tools from start to finish and contributed to building several other.

System administrator & developer
SimpliServers

May 2021 - Oct 2021

Contributed in designing a secure and robust server architecture that works at scale. Set up a delicate access control system. I've also automated several important internal processes.

Freelancer

Self-Employed

Oct 2019 - Jun 2024

Over the past half a decade, I've had the pleasure of working with many people all over the world on many various projects. Starting with creating simple video game mods to designing and completing fully functional web interfaces.
